

Description

Cuba is a functional stool inspired by Cuban lifestyle and culture, and whose wooden details are the result of highly advanced Scandinavian manufacturing techniques. The stool comes in three different heights – and in oiled oak or black lacquered oak. The seat can be upholstered from a large choice of leathers or textiles.

Dimensions

Low stool: W 44 cm, D 36 cm, H 46 cm
Counter stool: W 44 cm, D 36 cm, H 66 cm
Bar stool: W 44 cm, D 36 cm, H 77 cm

Weight

Low stool: 3.7 kg
Counter stool: 4.9 kg
Bar stool: 5.8 kg

Packaging type

Assembled in box, plastic bag.

Number of parcels

1

Packaging dimensions

Low stool: W 36.5 cm, D 46.5 cm, H 49.5 cm
Counter stool: W 36.5 cm, D 46.5 cm, H 69.5 cm
Bar stool: W 36.5 cm, D 47.5 cm, H 80,5 cm

Packaging weight

Low stool: 4.2 kg
Counter stool: 6.0 kg
Bar stool: 7.5 kg

Certification & labels

- Flammability and physical performance tests on fabrics, foams and cushions (upholstery)
- PASSED 2009 certificate
- EN 16139:2013 – durability, flammability
- CRIB5 approved foam as standard
- CAL117 approved foam on request

Materials (structure)

- Oiled oak
- Black lacquered oak

Recommended upholstery

- Black leather
- Cognac leather
- Sand leather

Before recycling

It is always recommended to reuse or repair before recycling, to prolong the use-phase of the product. If the product should be recycled, please use the following instructions.

Overview of materials

The table below shows the different materials used for production of Cuba.

SEAT FOAM	Galvanized steel
SEAT PLATE	Plywood
LEGS & SEAT	Oak
FEET	HDPE (polyethylene)
FOOT SUPPORT	Powder coated steel
BOLTS/WASHERS	Galvanized steel

Recycling instructions

Remove the upholstered seat plate by removing the bolts underneath the seat (the seat can be replaced, please contact Møbel for more info).

Unscrew the bolts and remove the washers from the legs.

Remove the foot support from the legs by turning the legs.

Remove the plastic feet from the legs. These can be wiggled out using a screwdriver.

The materials are sorted and recycled using the instructions at the recycling facility.

Frame

Cuba must never be placed next to a heat source, and should always avoid extended exposure to sunlight.

To clean, simply wipe with a soft cloth using lukewarm water. Avoid the use of chemical cleaners. The frame is treated with natural oil. Secondary treatment with oil counteracts drying of the wood and regular application is recommended.

Leather

Avoid placing the leather in direct sunlight or extreme heat. To absorb any spills, use a clean, dry cloth immediately. To dust, use a vacuum cleaner with a soft brush regularly.

Clean using the foam from soap flakes for house cleaning. Use a ½ decilitre of soap flakes to a litre of water. Whip the soap flakes into hot water. When the water becomes room temperature, the foam must be applied all over the leather with a soft cloth. Only use the foam and avoid soaking the leather. When the leather is dry, polish it with a soft, dry cotton cloth. Never use detergents, ammonia, oils, polish, varnish etc.
