

CARE & MAINTENANCE GUIDE

For textile versions: See kvadrat. dk, nevotex.com, Gabriel or Designers Guild, for further cleaning and maintenance instructions for your chosen textile.

In general remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean lukewarm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. Finish by soaking up the moist from the upholstery using a clean dish towel and make sure it won't dye off and finish using a hairdryer.

LEATHER

Avoid placing the leather in direct sunlight or extreme heat. To absorb any spills, use a clean, dry cloth immediately. To dush, use a vacuum cleaner with a soft brush regularly.

SHEEPSKIN

In general sheepskin does not require maintenance, its natural content of lanolin makes it almost resistible against dirt. Lanolin is the natural defense of the wool against dirt, it is therefore not recommended using cleaning devices with perfume or other chemicals, since it will remove the lanolin in the wool. If liquids or food is spilled on the wool, it is recommended to let it dry and afterwards vacuum. If the stain still occurs, it can be washed with a semi wet cloth and afterwards brushed out.

Avoid placing furniture with wool upholstery in direct sunlight as color changes in the wool may occur.

# WOOD

#### Natural oiled wood

To clean, simply wipe with a soft cloth using lukewarm water. Avoid the use of chemical cleaners. The wood is treated with natural oil. Secondary treatment with oil counteracts drying of the wood and regular application is recommended.

### Black lacquered wood

To clean, simply wipe with a soft cloth using lukewarm water.

GLASS

Products

Angel table

To clean, simply wipe with a soft cloth using lukewarm water. Avoid the use of chemical cleaners.

## CERAMIC

To clean simply wipe with a soft cloth using lukewarm water.

Avoid the use of chemical cleaners.
