### Recycling instructions

---

Unscrew the backrest from the frame, using the screws under the backrest.

Unscrew the seat from the frame, using the screws underneath the seat.

Use a scissor or knife to cut open the upholstery, and pull it off the seat and backrest.

The foam can now be easily pulled from the metal frame of the backrest, and the plywood of the seat. The materials are sorted and recycled using the instructions at the recycling facility.

#### Frame

---

To clean, simply wipe with a soft cloth using lukewarm water. Avoid the use of chemical cleaners.

#### Textile upholstery

---

For textile versions: See [kvadrat.dk](http://kvadrat.dk), [nevotex.com](http://nevotex.com), Gabriel or Designers Guild, for further cleaning and maintenance instructions for your chosen textile.

In general remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean lukewarm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. Finish by soaking up the moist from the upholstery using a clean dish towel and make sure it won't dye off and finish using a hairdryer.
