

Description

The Lean collection is an example of traditional craftsmanship applied to a modern design: an upholstered shell in a basic and minimalistic shape leans on a solid oak supporting structure – that can be stained or left natural. Danish and Italian design approaches are synthesized in this lounge chair, that combines appealing design with outstanding comfort.

Frame

To clean the frame, simply wipe with a soft cloth using lukewarm water. Avoid the use of chemical cleaners. The wood is treated with natural oil. Secondary treatment with oil counteracts drying of the wood and regular application is recommended.

Leather upholstery

Avoid placing the leather in direct sunlight or extreme heat. To absorb any spills, use a clean, dry cloth immediately. To dust, use a vacuum cleaner with a soft brush regularly.

Clean using the foam from soap flakes for house cleaning. Use a ½ decilitre of soap flakes to a litre of water. Whip the soap flakes into hot water. When the water becomes room temperature, the foam must be applied all over the leather with a soft cloth. Only use the foam and avoid soaking the leather. When the leather is dry, polish it with a soft, dry cotton cloth. Never use detergents, ammonia, oils, polish, varnish etc.

Textile upholstery

For textile versions: See kvadrat.dk, nevotex.com, Gabriel or Designers Guild, for further cleaning and maintenance instructions for your chosen textile.

In general remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean lukewarm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. Finish by soaking up the moist from the upholstery using a clean dish towel and make sure it won't dye off and finish using a hairdryer.
