

Möbel

## VISION

Each design is crafted with care from the finest materials following traditional as well as innovative methods, made to last for centuries. By bridging the Danish design tradition and innovation, we create designs that display curiosity and courage.

With a strong belief in co-operation and co-creation, every piece of furniture is created and curated in collaboration with visionary, skilled and kind people who share our love for beautiful, vibrant design, functionality and innovation.

## MØBEL COPENHAGEN

Møbel is defined by bold forms, architectural clarity and an uncompromising approach to expression.

We explore the space between sculptural presence and refined detail – always with the ambition to challenge convention and create something that resonates.

## LOUNGE

We're giving you a wrap-up of our favourite lounge settings from bold and colourful to subtle and classic. Common for all our lounge furniture is the exquisite comfort.

## DINING

Explore our selection of classic dining chairs and tables, all united by one essential quality: versatility. Their timeless design makes them easy to integrate into a variety of environments and contexts.

Depending on the chosen combination of textiles and colours for upholstery, piping, and frame, each piece can either blend subtly into its surroundings or stand out as a bold design statement.

## OUTDOOR

The Font collection was first introduced and later expanded into an outdoor version, that comprises eight designs – from dining and lounge chairs to bar stools, available with or without armrests.

While the form remains unchanged – classic, timeless, and rooted in the geometry of the circle – the materials have been carefully adapted to endure outdoor conditions.

This outdoor collection makes it possible to extend the Font collection into exterior spaces, with full customization options for frame, upholstery, and piping.

## OFFICE

An office chair has to be a well-balanced mixture of classic, elegant design and functionality. It has to be suitable for conference areas, meeting rooms and the home office. Here you can explore our take on the perfect office chair.

## BAR

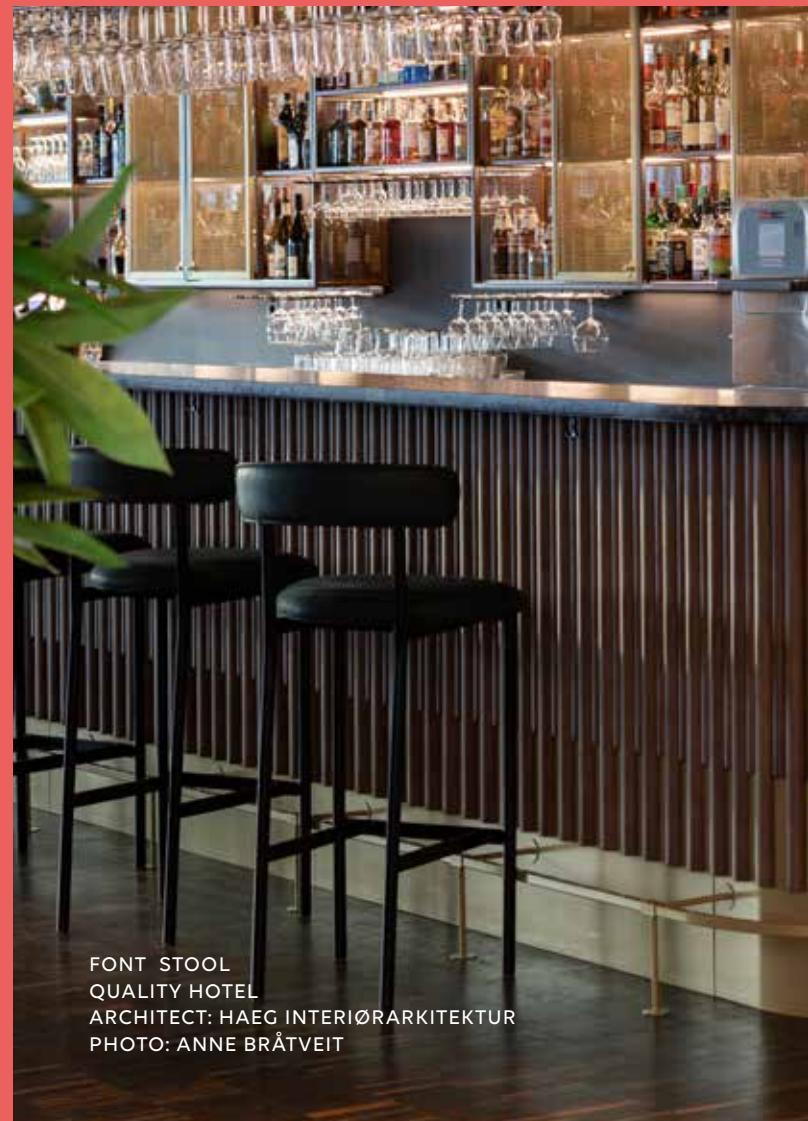

At Møbel, we have different bar collections suitable for numerous settings where a bar stool is needed - the kitchen island, by a bar or even a high table. With heights varying from 75 cm to 65 cm and availability with and without armrest and in different materials such as wood and polished steel, you will find something for most settings.
